**Value & Respect
Building Partnerships with
Parents at Foundation
Stage**

The aim of this pack is to-

- Show the Foundation Stage Curriculum in action to support families experiencing it for the first time.

- To address common issues and questions that concern parents about their child's learning in the Early Years.

This pack can be used in several ways to support families. For example:

- during the new parents meeting in the summer;
- at an Autumn introductory meeting to explain the curriculum;
- with small groups or individuals as appropriate.

It can also be used as staff INSET.

Before use with parents, the SMT and EY staff will need to watch the video and consider their responses.

Throughout the booklet there are ideas to prompt these responses and enable you to consider how you will develop parental discussion. Included in this pack (and on HVEC) are prompt sheets and materials for discussion with parents. These can be personalised to your school by the addition of digital photographs.

Valuing Home experiences-

The key words in this pack are –

**Value
and
Respect**

We need to keep these in mind as we develop partnership with parents.

It is easy to make assumptions. We need to consider:

- children's previous experiences, for example, refugee or asylum seeker families.
- that individual situations need to be sensitively considered and specific needs respected, for example, newly arrived families, or single parents.
