Language in Learning Across the Curriculum

How will this course help you?

Does your school need to develop an understanding of the support EAL pupils need to be successful learners?

Do your staff understand that the role of language underpins all strategies in effective Teaching and Learning?

Are you successful at promoting whole-school approaches in addressing the learning needs of EAL pupils?

Are staff confident in developing an awareness of cultural and linguistic diversity?

Do you need a course that provides a positive context for teachers to reflect critically and openly on their teaching?

We will help you to:

- Understand the role of scaffolding in language and learning.
- Understand how learners interpret and produce oral language.
- Develop knowledge of genre and language at text level.
- Assess written texts used in class and learn strategies for making them accessible for EAL pupils.
- Use strategies for developing EAL pupils' academic writing across the curriculum.
